

GETTING STARTED WITH YOUR CARD

Here is Your Grifols Card

WHAT SHOULD I DO WHEN I RECEIVE MY GRIFOLS CARD?

Before you use your Grifols card for the first time, it must be activated.

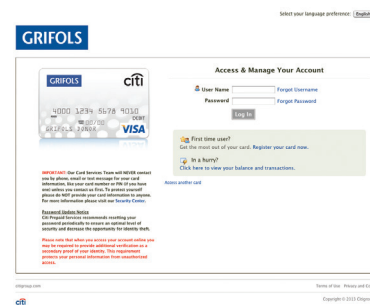

To activate your card and choose a PIN, call the number on the sticker affixed to your card and follow the voice prompts. You will be required to enter your 16-digit card number and your ZIP code.

Once your card is activated, sign the back and review the materials contained in your card package, including the schedule of fees printed on the back of the paper to which your card is attached. We also recommend registering on the cardholder website to access additional information and features.

GRIFOLS

Welcome Grifols Donor!

LET'S GET STARTED USING YOUR GRIFOLS CARD

The Grifols Visa® Prepaid Card is the method of compensation for plasma donations at Grifols. Following each donation, your funds are automatically loaded to your card, offering safe, secure and convenient access to your funds.

Your Grifols Card is a Visa prepaid card that can be used to make purchases wherever Visa debit cards are accepted. It can also be used to withdraw cash at ATMs.

There is no credit line associated with your Grifols Card, and there is no credit check or approval process required to receive and use your card. The purchase and withdrawal limit is the balance on your card.

USING YOUR GRIFOLS CARD

MAKING PURCHASES

At the Point-Of-Sale

- You can use your card to make purchases in two ways:
 - » Choose CREDIT and sign for the purchase
 - » Choose DEBIT and enter your PIN
- Some merchants offer a “cash back” option when DEBIT is selected. Before presenting your card, ask the merchant if the “cash back” option is available.

Split Payment Transactions

- If your purchase amount is more than the balance on your card, tell the cashier you'd like to use two forms of payment.
- Use your card as the first form of payment (depending on the merchant, you may need to tell the cashier the exact amount to deduct from your card).
- Pay the remaining amount with another form of payment.

Gas Station Purchases

- Your card will not work at the gas station pump.
- To purchase gas, you must present your card to an attendant inside the gas station prior to fueling.

Restaurant Purchases

- Restaurants may temporarily “authorize” your card for 20% more than the purchase amount in order to cover gratuity.
- Make sure your card balance is sufficient to cover the authorization amount.
- Once the transaction settles, the actual purchase amount will be reflected in your account history and your balance will be adjusted automatically.
